

VISTA SYMBOLS[®]

DATA SHEET

VISTA SYMBOLS is a software package designed to work with any VISIO "drag and drop" drawing package. It contains pre-configured shapes and symbols for all the main CCTV equipment featured in the VISTA product range. Cameras, housings, pan/tilts, transmission equipment, control equipment, VCRs and monitors are a few examples of the equipment which are featured in VISTA Symbols. Model numbers and prices can be assigned to each symbol to allow shape reports to calculate the cost of a drawn system and list all parts.

Symbols such as walls, gates and fences are also included to allow an overhead layout of the site to be drawn.

VISTA SYMBOLS is ideal for CCTV professionals, using products from the VISTA range, who want to produce good looking CCTV system drawings at low cost.

VISTA SYMBOLS is available in English, French, German, Italian and Spanish.

Hardware / Software	Requirements
PC & Display	486 33Mhz or higher with VGA or SVGA. Pentium recommended.
